## 5

Tanggapin ang membership Certificate at BATELEC II Membership ID Card mula sa:

- Punong Tanggapan - Lipa Branch: MCSPRD Captive Market Section
- Area Offices: MSD Clerk o Consumer Assistance Officer
- Unit Offices: Consumer Assistance Clerk

## 3

Hintayin na maisagawa ang inspeksyon sa linya ng bahay o House Wiring.

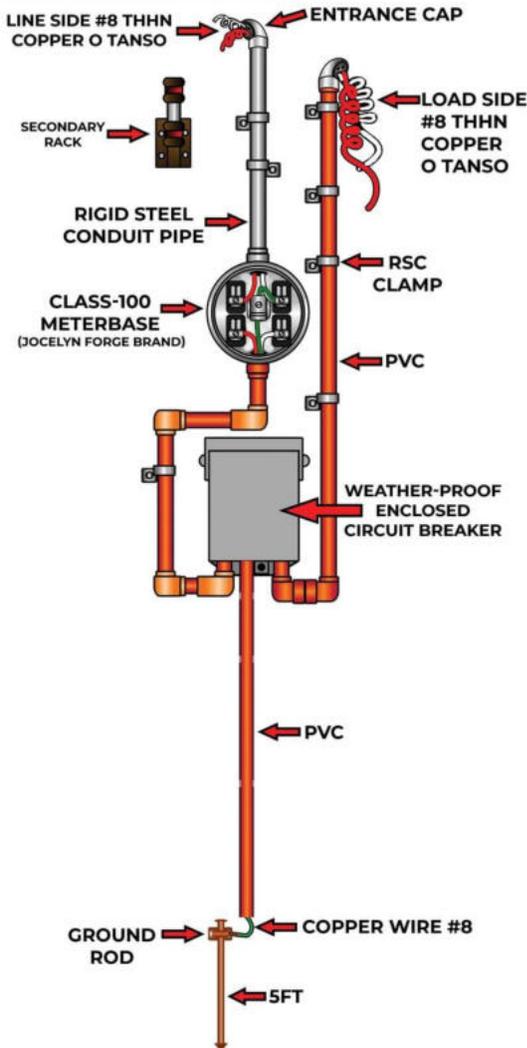

- \*Approved - Maaari nang tumuloy sa Step no. 4
- \*Disapproved - isagawa ang kailangang pagsasaayos sa service entrance na nakalahad sa Acknowledgement of inspection at itawag sa opisina ng BATELEC II kapag ito ay kumpleto na.

## 6

Maghintay ng 1 hanggang 2 araw upang maikabit ng BATELEC II Tapping crew ang metro at bagong serbisyo ng kuryente.

# SERVICE ENTRANCE SPECIFICATION

**CLASS 200 kWh Meter**

# GABAY SA TAMANG PAG-INSTALL NG SERVICE ENTRANCE

**1. ANG LINE SIDE AY DAPAT NAKALANTAD:**  
Huwag ilubog ang entrada sa semento upang maiwasan ang pagkasira mula sa tubig o kalawang.

**2. TAMANG SUKAT NG WIRE:**  
Gumamit ng THHN #8 copper o tanso para sa ligtas at maayos na daloy ng kuryente.

**3. LOKASYON NG ENTRADA:**  
Ang entrada ay dapat ikabit sa pinakamalapit na poste ng BATELEC II, hindi lalampas sa 30 metro, upang matiyak ang maayos na koneksyon at kaligtasan.

**4. TAMANG TAAS NG METRO:**  
Ikabit ang metro sa taas na 5 talampakan (5 ft) mula sa lupa para madaling ma-access.

**5. TAMANG KULAY NG MGA KABLE (COLOR CODING):**  
Pula (Red) Asul (Blue) Itim (Black): Hotline  
Puti (White): Neutral  
Berde (Green): Ground

**6. WEATHERPROOF BREAKER:**  
Maglagay ng weatherproof breaker para protektahan ang sistema mula sa overload at short circuit.

**7. GROUND ROD:**  
Siguraduhing may maayos na pagkakabit ng ground rod para sa karagdagang proteksyon.

Ang lahat ng pag-install ay dapat gawin ng isang lisensyadong electrician para masigurong ligtas at ayon sa pamantayan ng BATELEC II at Philippine Electrical Code (PEC).
